Version 1.5	Revision Date: 2021-04-24	SDS Number: 800010033682	Print Date: 2021-04-25 Date of last issue: 25.02.2021 Date of first issue: 06.12.2018
Preca	autionary statements	: Prevention: No precaution: Response: No precaution: Storage: No precaution: Disposal: No precaution:	ary phrases. ary phrases.

Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis. Used oil may contain harmful impurities. Not classified as flammable but will burn.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture	: Mixture
Substance name	: Pennzoil Euro L SAE 5W-30 Full Synthetic Motor Oil
Chemical nature	<ul> <li>Synthetic base oil and additives. Highly refined mineral oil. The highly refined mineral oil contains &lt;3% (w/w) DMSO- extract, according to IP346. The highly refined mineral oil is only present as additive dilu- ent. Classification based on DMSO extract content &lt; 3% (Regula- tion (EC) 1272/2008, Annex VI, Part 3, Note L).</li> </ul>
	* contains one or more of the following CAS-numbers: 64742- 53-6, 64742-54-7, 64742-55-8, 64742-56-9, 64742-65-0, 68037-01-4, 72623-86-0, 72623-87-1, 8042-47-5, 848301-69- 9, 68649-12-7, 151006-60-9, 163149-28-8.

#### Hazardous components

## **SECTION 4. FIRST-AID MEASURES**

,	10		0000100000
	In case of skin contact	:	Remove contaminated clothing. Flush exposed area with wa-
	If inhaled	:	No treatment necessary under normal conditions of use. If symptoms persist, obtain medical advice.

Version 1.5	Revision Date: 2021-04-24	SDS Number: 800010033682	Print Date: 2021-04-25 Date of last issue: 25.02.2021 Date of first issue: 06.12.2018
In cas	se of eye contact	If persistent irrit : Flush eye with Remove contac rinsing.	y washing with soap if available. ation occurs, obtain medical attention. copious quantities of water. et lenses, if present and easy to do. Continue ation occurs, obtain medical attention.
If swallowed Most important symptoms and effects, both acute and delayed			eatment is necessary unless large quantities however, get medical advice.
		of black pustule	itis signs and symptoms may include formation as and spots on the skin of exposed areas. esult in nausea, vomiting and/or diarrhoea.
Prote	ction of first-aiders	appropriate per	ering first aid, ensure that you are wearing the sonal protective equipment according to the and surroundings.
Notes	to physician	: Treat symptom	atically.

## **SECTION 5. FIRE-FIGHTING MEASURES**

Suitable extinguishing media	:	Foam, water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.	
Unsuitable extinguishing media	:	Do not use water in a jet.	
Specific hazards during fire- fighting	:	Hazardous combustion products may include: A complex mixture of airborne solid and liquid particulates and gases (smoke). Carbon monoxide may be evolved if incomplete combustion occurs. Unidentified organic and inorganic compounds.	
Specific extinguishing meth- ods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment.	
Special protective equipment for firefighters	:	Proper protective equipment including chemical resistant gloves are to be worn; chemical resistant suit is indicated if large contact with spilled product is expected. Self-Contained Breathing Apparatus must be worn when approaching a fire in a confined space. Select fire fighter's clothing approved to relevant Standards (e.g. Europe: EN469).	

# SECTION 6. ACCIDENTAL RELEASE MEASURES

Version 1.5	Revision Date: 2021-04-24	SDS Number: 800010033682	Print Date: 2021-04-25 Date of last issue: 25.02.2021 Date of first issue: 06.12.2018
tive e	nal precautions, protec- quipment and emer- / procedures	- : Avoid contact	with skin and eyes.
Envire	onmental precautions	nation. Preven	te containment to avoid environmental contami- t from spreading or entering drains, ditches or sand, earth, or other appropriate barriers.
		Local authoritic cannot be con	es should be advised if significant spillages tained.
	ods and materials for inment and cleaning up	Prevent from s or other contai Reclaim liquid Soak up residu	spilt. Avoid accidents, clean up immediately. spreading by making a barrier with sand, earth nment material. directly or in an absorbent. ue with an absorbent such as clay, sand or other ial and dispose of properly.
Additi	onal advice	see Section 8	on selection of personal protective equipment of this Safety Data Sheet. on disposal of spilled material see Section 13 of ta Sheet.

# SECTION 7. HANDLING AND STORAGE

General Precautions	Use local exhaust ventilation if there is risk of inhalation of vapours, mists or aerosols. Use the information in this data sheet as input to a risk as- sessment of local circumstances to help determine appropri- ate controls for safe handling, storage and disposal of this material.
Advice on safe handling	Avoid prolonged or repeated contact with skin. Avoid inhaling vapour and/or mists. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Properly dispose of any contaminated rags or cleaning mate- rials in order to prevent fires.
Avoidance of contact	Strong oxidising agents.
Product Transfer	Proper grounding and bonding procedures should be used during all bulk transfer operations to avoid static accumulation.
Storage	
Other data	Keep container tightly closed and in a cool, well-ventilated place. Use properly labeled and closable containers.
16	800010033682

Version 1.5	Revision Date: 2021-04-24	SDS Number: 800010033682	Print Date: 2021-04-25 Date of last issue: 25.02.2021 Date of first issue: 06.12.2018
		Store at ambier	t temperature.
Packa	aging material		al: For containers or container linings, use mild nsity polyethylene. erial: PVC.
Conta	ainer Advice		ontainers should not be exposed to high tem- use of possible risk of distortion.

## SECTION 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

		late matter)		

## **Biological occupational exposure limits**

No biological limit allocated.

## **Monitoring Methods**

Monitoring of the concentration of substances in the breathing zone of workers or in the general workplace may be required to confirm compliance with an OEL and adequacy of exposure controls. For some substances biological monitoring may also be appropriate.

Validated exposure measurement methods should be applied by a competent person and samples analysed by an accredited laboratory.

Examples of sources of recommended exposure measurement methods are given below or contact the supplier. Further national methods may be available.

National Institute of Occupational Safety and Health (NIOSH), USA: Manual of Analytical Methods http://www.cdc.gov/niosh/

Occupational Safety and Health Administration (OSHA), USA: Sampling and Analytical Methods http://www.osha.gov/

Health and Safety Executive (HSE), UK: Methods for the Determination of Hazardous Substances http://www.hse.gov.uk/

Appli- n-perfumed moisturizer is recommended. Is contact we recommend gloves with break- of more than 240 minutes with preference for > where suitable gloves can be identified. For lash protection we recommend the same but t suitable gloves offering this level of protection vailable and in this case a lower breakthrough cceptable so long as appropriate maintenance ent regimes are followed. Glove thickness is not tor of glove resistance to a chemical as it is the exact composition of the glove material. ss should be typically greater than 0.35 mm the glove make and model.
Eye	protection		nandled such that it could be splashed into eyes, ewear is recommended.
Skir	and body protection	work clothes.	n is not ordinarily required beyond standard ctice to wear chemical resistant gloves.
The	rmal hazards	: Not applicable	9
Prot	ective measures		ective equipment (PPE) should meet recom- nal standards. Check with PPE suppliers.

## Environmental exposure controls

vant environmental protection legislation. Avoid contamination of the environment by following advice given in Section 6. If necessary, prevent undissolved material from being dis- charged to waste water. Waste water should be treated in a municipal or industrial waste water treatment plant before discharge to surface water. Local guidelines on emission limits for volatile substances must be observed for the discharge of exhaust air containing vapour.	ven in Section 6. If from being dis- ould be treated in a nent plant before atile substances

## SECTION 10. STABILITY AND REACTIVITY

Reactivity	: The product does not pose any further reactivity hazards in addition to those listed in the following sub-paragraph.	I
Chemical stability	: Stable.	
Possibility of hazardous reac- tions	: Reacts with strong oxidising agents.	
Conditions to avoid	: Extremes of temperature and direct sunlight.	
Incompatible materials	: Strong oxidising agents.	
Hazardous decomposition products	: No decomposition if stored and applied as directed.	

## SECTION 11. TOXICOLOGICAL INFORMATION

Basis for assessment	: Information given is based on data on the components and the toxicology of similar products.Unless indicated otherwise, the data presented is representative of the product as a whole, rather than for individual component(s).
	······································

## Information on likely routes of exposure

Skin and eye contact are the primary routes of exposure although exposure may occur following accidental ingestion.

### Acute toxicity

Product:	
Acute oral toxicity	<ul> <li>LD50 (rat): &gt; 5,000 mg/kg Remarks: Low toxicity: Based on available data, the classification criteria are not met.</li> </ul>

## Skin corrosion/irritation

#### Product:

Remarks: Slightly irritating to skin. Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis. Based on available data, the classification criteria are not met.

### Serious eye damage/eye irritation

#### Product:

Remarks: Slightly irritating to the eye. Based on available data, the classification criteria are not met.

#### Respiratory or skin sensitisation

#### Product:

Remarks: Not a skin sensitiser. Based on available data, the classification criteria are not met.

## Germ cell mutagenicity

### Product:

10 /

Genotoxicity in vivo	:	Remarks: Non mutagenic
		Based on available data, the classification criteria are not met.

## Carcinogenicity

<u>Product:</u> Remarks: Not a carcinogen. Based on available data, the o	classification criteria are not met.
IARC	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA	No component of this product present at levels greater than or equal to 0.1% is on OSHA's list of regulated carcinogens.
NTP	No component of this product present at levels greater than or

equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

## **Reproductive toxicity**

## Product:

Effects on fertility

Remarks: Not a developmental toxicant. Does not impair fertility. Based on available data, the classification criteria are not met.

## STOT - single exposure

### Product:

Remarks: Based on available data, the classification criteria are not met.

### STOT - repeated exposure

#### Product:

Remarks: Based on available data, the classification criteria are not met.

## Aspiration toxicity

Product:

Not an aspiration hazard.

#### **Further information**

#### Product:

Remarks: Used oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they may present risks to health and the environment on disposal.

ALL used oil should be handled with caution and skin contact avoided as far as possible.

Remarks: Continuous contact with used engine oils has caused skin cancer in animal tests.

Remarks: Slightly irritating to respiratory system.

## **SECTION 14. TRANSPORT INFORMATION**

## **National Regulations**

**TDG** Not regulated as a dangerous good

### **International Regulations**

### IATA-DGR

Not regulated as a dangerous good

## IMDG-Code

Not regulated as a dangerous good

## Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied. MARPOL Annex 1 rules apply for bulk shipments by sea.

#### Special precautions for user

Remarks

: Special Precautions: Refer to Section 7, Handling & Storage, for special precautions which a user needs to be aware of or needs to comply with in connection with transport.

## **SECTION 15. REGULATORY INFORMATION**

### Safety, health and environmental regulations/legislation specific for the substance or mixture

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and the SDS contains all the information required by the HPR.

## The components of this product are reported in the following inventories:

EINECS

: Notified with Restrictions.

Version 1.5	Revision Date: 2021-04-24	SDS Number: 800010033682	Print Date: 2021-04-25 Date of last issue: 25.02.2021 Date of first issue: 06.12.2018
